Full job description

Your new company

This opportunity is working for one of Australia's largest utilities. This will be a 12-month contract opportunity with possibility of turning permanent.

Your new role

As a Metering Technician, you will be responsible for the maintenance and installation of low voltage services. You will safely carry out the reading of meters safely and to full safety compliance. You will deliver works on time and will be responsible for consistently liaising with relevant internal and external stakeholders.

What you'll need to succeed

- You must have completion of an electrical trade course
- 2 years' minimum experience working on the installation and maintenance of LV construction works
- Level 1 & 2 Service Provider accreditation are essential
- Confident it cell installation, commissioning and troubleshooting

What you'll get in return

You will work for one of the NSW leading utility organisations with a fantastic reputation. You will be paid a competitive hourly rate with the opportunity to turn into a permanent position.

What you need to do now
