Full job description

Our engineers work with world-class technology which is all cloud based. Google Cloud technologies feature strongly, as well as Kafka, Cassandra, DSE Graph, Elastic and more. We have a strong emphasis on real-time but will also continue to leverage end-of-day processing for auto-healing and reconciliations.

As a Data Engineer you will build and maintain pipelines using industry best practices. This includes learning about the business, building and maintain high quality software in a DevOps manner, and help automate its testing and delivery.

Essential skills and experience:

- Proven track record working in the data engineering space with cloud technologies
- Strong understanding of all aspects of managing data including reconciliations, operations, data governance, extraction with CDC
- Java programming experience

Desirable skills and experience:

- Google Cloud technologies such as DataFlow, PubSub and BigQuery
- Experience with technologies such as Kafka, Elastic, Cassandra

About the Corporate Operations Group

The Corporate Operations Group brings together specialist support services in Digital Transformation & Data, Technology, Operations, Human Resources, Business Services, Business Improvement & Strategy, and the Macquarie Group Foundation. We deliver service excellence to ensure Macquarie is open for business, deliver on transformational change, invest in our people and have deep relationships with our customers.

Our commitment to Diversity, Equity and Inclusion

The diversity of our people is one of our greatest strengths. An inclusive and equitable environment enables us to deliver innovative and sustainable outcomes for our people, clients, shareholders and communities. From day one, you'll be encouraged to be yourself and supported to perform at your best. If our purpose of 'empowering people to innovate and invest for a better future' is as inspiring to you as it is to us, please apply. With the right technology, support and resources, our people can work in a range of flexible ways.

We are committed to providing a working environment that embraces and values diversity, equity and inclusion. We encourage candidates to speak with a member of our recruitment team if you require adjustments to our recruitment process to support you, and the type of working arrangements that would help you thrive.

About Macquarie

A career at Macquarie means you'll have the opportunity to develop and utilise new skills, explore interesting fields and do challenging work that will impact the lives of people around the world—whether it's accelerating the green energy transition, helping sustain global food supplies, financing social housing projects or investing in essential infrastructure. At Macquarie, we're empowering people to innovate and invest for a better future.

Our size and international presence means your work can take you anywhere—across business groups, disciplines, sectors and borders. With 17,000+ employees and offices in 33 markets around the world, we're a truly global organisation.

You'll be supported by a diverse team where the unique perspectives, ideas and experiences that all of our people bring are valued. You'll be empowered to address unmet needs in our communities whilst advising and investing alongside our clients and partners. Working with us, you'll have the opportunity to make a difference.

Macquarie is a global financial group providing clients with asset management, retail and business banking, wealth management, leasing and asset financing, market access, commodity trading, renewables development, specialist advisory, capital raising and principal investment.
